### **DETAILED ACTION**

Claims 1, 4, 18, 20, 22 and 25 are currently pending in the instant application, are allowable over the prior art of record and have been renumbered as claims 1-6.

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Francis Ginah on 22 April 2005.

The application has been amended as follows:

1. Amend the definition of R1 in **claim 1** by deleting the phrase "wherein m is an integer from 0 to 2" and inserting in its place --wherein m is an integer from 1 to 6--.
2. Amend the definition of R1 in **claim 1** by deleting the phrase "and p is an integer from 0 to 2" and inserting in its place --and p is an integer from 0 to 5--.
3. Amend claim 18 by inserting a period at the end of the claim.

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance. This invention relates to indole products of the formula (I). The novel and nonobvious aspect of this invention involves the variable R4. The closest prior art of record, EP 0 620 215, which discloses sPLA2 inhibitors of the formula (I) which differs from the instant invention at the position equivalent to applicants R4, does not disclose an amino nitrogen

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
